

Storz am Mark GmbH creates its worldwide reputation with the product brand “stoma®” in the dental sector

Group of companies with headquarter in Emmingen-Liptingen (rural district of Tuttlingen) receives the award “Company of the month November 2009” by the Association Schwarzwald-Baar-Heuberg / Application techniques can be learnt at hands-on-workshops

The co-operation with dentists, universities, clinics and reknown institutes is the source for high-end product innovations for special applications, since many years. This expertise and the 90 years of success story did convince to award the company as “company of the month November 2009” in the “winner region” Schwarzwald-Baar-Heuberg.

[...]

The product portfolio of the brand stoma® comprehends approximately 2400 instruments. These are applied in the following disciplines: Diagnostics, Prophylaxis, Conserving Treatment, Periodontics, Oral and Maxillary Surgery, Endodontics and Implantology. The supply of complementary products, such as instruments and consumables count to the further service range of the company.
